A CALL TO TEACH

2022

GLOBAL CHALLENGE
STUDENT TEACHER
ACADEMY

VISION

Within the broader Global Challenge vision, our vision is Jesus.
We disciple and shape multiracial leaders to become passionate teachers who in turn disciple
and shape the next generation.

As followers of Jesus we are called to love the Lord with all we have, to love our neighbours, declare His mighty works and praise Him in everything we do. As His followers we have the opportunity to live out the calling He places on our lives.

ACCT is a student teacher program in Jeffreys Bay, Eastern Cape, that falls under Global Challenge and Global Leadership Academy. The program equips, enables and mobilises aspiring teachers to step into their calling and find purpose as future educators. It includes educational training as well as discipleship and Biblical training for future teachers - to not only teach but also disciple in the school environment. The program is practical in the sense that it allows for growth and experience in the classroom, on the sports field and in extra mural activities.

ACTT takes in registered education students from their first academic year and allows them to develop and practically grow as a teacher throughout the duration of their studies.

It allows one to be part of a community and organisation who upholds the following values:

- To Live to Love
- To Seek God
- To be Servant Leaders
- To start Creative Ventures
- To Travel the nations

We are teachers who shape and disciple future leaders!

ABOUT US

since 2020

ACCT student teacher program started in January 2020 with 3 students. The heart was to build into multiracial teachers from under-privileged backgrounds.

In January 2021 the Lord added 8 new first years, most of whom stayed on campus and helped in the hostels.

One student who felt called to leave everything behind and join the program was Kholiswa, who taught in the Transkei for many years but never had a qualification.

In 2022 the Lord refined the focus of the qualifying criteria. The first year intake was only 4, but 4 very passionate young students.

We are partnering with Mtat (mtat.co.za) in Gauteng. They are a similar programme and this partnership includes visits and the sharing of resources.

It is a privilege to build with these 12 students and we look forward to our new intake in 2023.
